

Press Release 1th July 2017

PDSVision + Simonsoft = True

Dear PDSVision and Simonsoft Customer

Since 2010 Simonsoft UK has been part of PDS Vision Group and we have worked closely together with our colleagues in the group. PDS Vision is the largest Northern European reseller for PTC PLM Solutions, such as Windchill and Creo.

Now more than ever the service and aftermarket lifecycle has become more integrated in the product development process and therefore we have decided to **merge Simonsoft UK with PDSVision Ltd. Our company name going forward is PDSVision Ltd.** This integration will be in effect as of July 1st 2017. This merger will impact some of our internal processes including invoicing and emails.

However, there are some things that will never change:

- Our commitment to Technical Documentation and Aftermarket Solutions
- Our staff will remain the same plus we have recruited new resources for technical documentation.
- Our commitment to be a spirited group for our customers.

Please reach out for any questions around this merger.

Kind regards,

Henrik Hanicke – Managing Director

Jonas Hårdner – Founder and father of Simon.
